

Copernicus CLMS workshop

Future of Copernicus

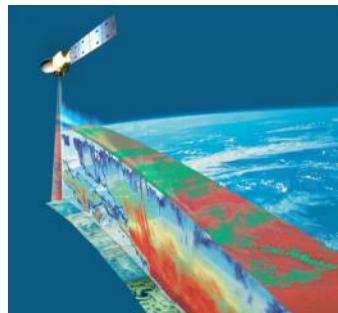

Jasper van Loon, Netherlands Space Office

The satellites

'Copernicus Evolution'

Sentinel-1	RADAR	(land and marine applications)	✓ ✓
Sentinel-2	Multispectral	(land applications)	✓ ✓
Sentinel-3	Hyperspectral	(marine applications)	✓ ✓
Sentinel-4	Multispectral	(atmosphere, geostationary orbit)	2021
Sentinel-5P 	Multispectral	(atmosphere, polar orbit)	✓
Sentinel-5	Multispectral	(atmosphere, polar orbit)	2021
Sentinel-6	Altimetry	(marine applications)	2020

Free and open data, guaranteed stream of data

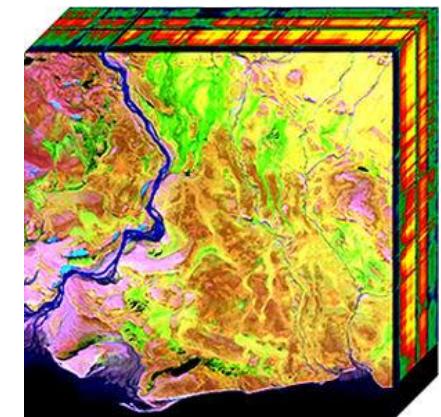

Copernicus Evolution

- **Sentinel Continuation**
S-1C/D, -2C/D, -3C/D, 5B/C
- **Sentinel Expansion:**
New Sentinels next to S1-S6 -> S7, S8, S9, ...
- **Sentinel Next Generation:**
Replacement of S1 – S9

EC priorities Sentinel Expansion

- 1) CO₂ anthropogenic emissions
- 2) SAR L-band imagery
- 3) High resolution Thermal Infrared Imager
- 4) High resolution radar imagery of ice
- 5) Sea ice parameters
- 6) Mean and time variable gravity field
- 7) Ice sheets and shelves elevation data
- 8) High resolution (10-30 m) hyperspectral data
- 9) Sea surface salinity (1 km)
- 10) Permafrost active layer thickness

Mission ideas

- Anthropogenic CO₂ Monitoring mission
- Land Surface Temperature mission
- Polar Ice and Snow Topographic mission
- Passive Microwave Imaging mission
- Hyperspectral Imaging mission
- L-band SAR mission

- Gravity mission

- Security mission

- L-band Passive Microwave

Mission ideas

- Anthropogenic CO₂ Monitoring mission
 - Land Surface Temperature mission
 - Polar Ice and Snow Topographic mission
 - Passive Microwave Imaging mission
 - Hyperspectral Imaging mission
 - L-band SAR mission
-
- Gravity mission
 - Security mission
 - L-band Passive Microwave

6 x 2 parallel
Phase A/B1-studies

Mission ideas

- Anthropogenic CO₂ Monitoring mission
- Land Surface Temperature mission
- Polar Ice and Snow Topographic mission
- Passive Microwave Imaging mission
- Hyperspectral Imaging mission
- L-band SAR mission
- Gravity mission
- Security mission
- L-band Passive Microwave

6 x 2 parallel
Phase A/B1-studies

7th category LTS
ESA mission?
Sentinel Next Generation?

Mission ideas

- Anthropogenic CO₂ Monitoring mission
- Land Surface Temperature mission
- Polar Ice and Snow Topographic mission
- Passive Microwave Imaging mission
- Hyperspectral Imaging mission
- L-band SAR mission
- Gravity mission
- Security mission
- L-band Passive Microwave

6 x 2 parallel
Phase A/B1-studies

7th category LTS
ESA mission?
Sentinel Next Generation?

High level discussion

Sentinel Next Generation?

High level discussion

Sentinel Next Generation?

EU Space Program

'MFF 2021 - 2027

EU Budget 2021 - 2027

EU Commission shoots for stars with increased space budget

European Space Agency boss warns EU of rival agency risks

ESA director general argues for more collaboration as EU ramps up investment in own space agency

Wednesday 6th of June, 2018

EU Space Budget 2021 - 2027

EU Space Program	2014 - 2020	2021 - 2027
Galileo + EGNOS	6.8	9.7
Copernicus	4.3	5.8
SSA + GOVSATCOM	0.0	0.5
Total	11.1	16.0

x billion euro's

Copernicus 2021 - 2027

- **CO2 monitoring system:** Paris Agreement
- **Agriculture:** CLMS. Smart farming? CAP? TIR mission, Hyperspectral mission
- **Polar regions:** Topographic mission, Passive Microwave Imager
- **Security:** Trafficking, border control. Security mission? Role of ESA (= civil)

Time line 'Future Copernicus'

- Sep. 2017 : Priorities set by EC
- Nov. 2017 : Selection candidate missions
- April 2018 : Start Phase A/B1 studies ESA
- May 2018 : Budget proposal MFF 2021 - 2027
- June 2018 : EC: Budget Copernicus (Sentinels + services)**

Time line 'Future Copernicus'
